

EPSILON DOUBLE GLIDER DOOR SYSTEM - ELECTRIC/PNEUMATIC

It is recommended exterior door surfaces are washed regularly to remove dirt and other impurities >

- Use **low** pressure wash system, either manually by hand/hose or as provided by typical bus wash machines.
- Soft brushes must be used for a gentle cleaning process.
- Warm mild soapy water or similar gentle cleaning solution to be used (do not using aggressive cleaning chemicals)
- Particular care to be taken where horizontal brush seals are fitted.

Please **DO NOT** use high pressure washers.
