2400
customers
worldwide

**LARGEST INDUSTRY CROSS
REFERENCE DATABASE**

www.transportdoorsolutions.co.uk

Welcome to the **5th** issue of our ever popular product guide that includes the most commonly sold and recommended parts to help keep your door systems in good order for their longest possible service life. Our stock is now more dominated by the most modern Ventura & TDS quality OE parts, but we still hold a number of common spares needed for older bus doors produced pre 2008, which are still present in most Operators fleets. Some items visibly removed from this issue may still be available, please contact us if you need support.

This guide includes the most regularly used service parts on door systems in service in UK & Irish fleets including City/Rural Buses supplied by **Alexander Dennis, Bamford Bus (Wrightbus)**, **BYD UK, Caetano, MCV** and **Switch (Optare)** Minibuses supplied by **Mellor Bus & Treka Bus**. We can supply any OE part for **TDS** and **Ventura** systems including items to support more major(crash) repairs including complete drive mechanisms, shelfplates, door leaves and door shafts. We are increasing our UK stock of longer leadtime items to better support VOR repairs and minimise vehicle downtime on the most popular vehicle models.

We supply **OE** parts for ALL current **TDS & Ventura** doors, alongside a good range of parts needed for older **Peters & Deans** systems. To provide a greater offering to Operators, we continue to supply a number of parts for common coach/minibus doors manufactured by **BCE, Masats & Revar**.

If the part number you require is unknown, please send a picture and provide **serial number label** details from the nearest main door component (door leaf or shelfplate). If labels are missing, provide details from a sister vehicle and confirm **vehicle model** and **body number/registration** details. Labels should be located as indicated.

DOOR TYPE KEY:

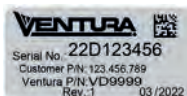

INWARD GLIDER
IG, IG3, IG4/E

PLUG SLIDER
PS, PS1, PS2/E

RAPID SLIDER
RS/E

technical training for door systems

1

Product knowledge & operation

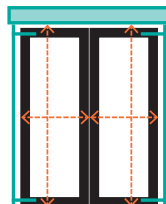

Understand the system layout, key components and operating principles.

2

Installation & adjustment

Learn correct installation and adjustment procedures, critical settings and functional checks.

3

Maintenance & service

Develop your inspection and maintenance skills and learn to apply technical documentation.

4

Diagnostics & troubleshooting

Investigate faults step by step and use available diagnostic tools to identify possible causes.

5

Train the trainer

Prepare your trainers to share technical knowledge using practical explanations and training materials.

let's discuss your training needs

Designed for technical and maintenance teams at vehicle manufacturers and public transport operators. Each training programme is tailored to your organisation, with the content, group size, duration, language and location agreed to suit your team's specific needs.

VENTURA
SYSTEMS

td TRANSPORT DOOR
SOLUTIONS

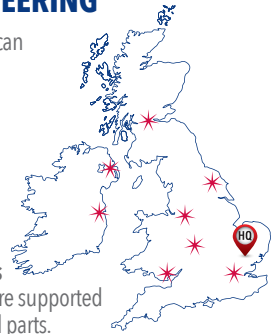

COMPONENT SOURCING & REVERSE ENGINEERING

TDS regularly finds sources for older & difficult to obtain parts. Equivalents can be offered or parts reverse engineered to a high specification including pneumatic, electronic and mechanical types. We just require samples, drawings or images to assist us in this process.

WARRANTY & SERVICE SUPPORT

TDS have an established Service Agent network of trained engineers to support **TDS & Ventura** door systems in UK & Irish service both in and out of warranty. Alongside this some cover can be provided for older **Deans & Peters** and coach doors from **BCE, Masats (Bode) & Revar**. Our agents are supported with latest OE training, technical data, tooling/diagnostics & quality original parts.

SITE TRAINING, DIAGNOSTICS & MAINTENANCE

TDS can organise convenient & effective **customised door training courses** at customers preferred depot/workshop locations. Ventura Training Engineers provide **certified** training courses tailored for each customers needs. Small groups benefit from both classroom and hands on based courses that focus on latest techniques for **IG/PS/RS** door types, training covers **door setup & adjustment, diagnosis & maintenance**. Fleet bus door health checks can also be organised.

UK DOOR MANUFACTURER

Over the past 18 years TDS has supplied many entrance door systems to Switch Mobility(Optare) and still support demands from Mellor & Treka Bus. These vehicles are fitted with electric or pneumatic inward gliding systems that now number over 7000 reliable units in service globally. Well known vehicle models with our system fitted include > Optare Olympus, Solo, Tempo & Versa. Switch Metrocity & Solo. Treka Bus 16 & Mobility+. Mellor Bus Maxima & Strata HF.
